NUSANTARA TROPICAL FISHERIES SCIENCE JOURNAL		
Foreword We are grateful to issue the Nusantara Tropical Fisheries Science Journal, Volume 3, Number 2, August 2024. This journal is a collection of scientific research results from lecturers and researchers across Indonesia. This edition presents a diverse range of research materials, including studies on Aquaculture, Fisheries Socioeconomics, and Aquatic Resource Management. The discussions and reviews are comprehensive and scientific, making this issue a valuable source of information for the community and contributing to the advancement of fisheries and marine sciences in Indonesia, especially in tropical region. Finally, the editorial team would like to thank all parties who have contributed to the publication of this journal. We also welcome suggestions and feedback for improving future editions of the Nusantara Tropical Fisheries Science Journal. Best regards, Editorial Team	Table of Contents
