Nusantara Tropical Fisheries Science Journal (Online-ISSN: 2985-5462)

JURNAL ILMU PERIKANAN TROPIS NUSANTARA (Nusantara Tropical Fisheries Science Journal)		
Foreword The <i>Nusantara Tropical Fisheries Science Journal</i> (Jurnal Ilmu Perikanan Tropis Nusantara) Volume 4, Number 2, August 2025, has been published. This journal is a collection of scientific research results from lecturers and researchers both within and outside the Faculty of Fisheries and Marine Science, Mulawarman University. The research materials presented in this issue are quite diverse, covering topics such as Aquaculture, Fisheries Socioeconomics, and Aquatic Resource Management. The discussions and reviews featured are comprehensive and scientific, making this publication a valuable source of information for the public while enriching the body of knowledge in the field of fisheries and marine science in Indonesia in general, and in East Kalimantan in particular. Finally, the editorial team would like to express sincere gratitude to all parties who have contributed to the publication of this journal. We also warmly welcome suggestions and constructive feedback for the continuous improvement of the <i>Nusantara Tropical Fisheries Science Journal</i> in the future. Warm regards, Editorial Team	Table of Contents
