JURNAL ILMU PERIKANAN TROPIS NUSANTARA

(Nusantara Tropical Fisheries Science Journal)

Preface

We are pleased and honored to present the publication of the *Nusantara Tropical Fisheries Science Journal* (Jurnal Ilmu Perikanan Tropis Nusantara), Volume 5, Number 2, August 2026. This journal comprises a collection of scientific research findings contributed by lecturers and researchers from both within and outside the Faculty of Fisheries and Marine Sciences, Mulawarman University.

The articles featured in this issue cover a diverse range of topics, including aquaculture, fisheries socio-economics, and aquatic resource management. The studies presented offer comprehensive and scientifically rigorous discussions and analyses, providing valuable information for the broader community while contributing to the advancement of knowledge in the fields of fisheries and marine sciences in Indonesia.

Finally, the Editorial Board would like to express its sincere appreciation to all individuals and institutions whose support and contributions have made the publication of this journal possible. We also welcome constructive suggestions and criticisms as part of our ongoing efforts to improve the quality and development of the *Nusantara Tropical Fisheries Science Journal* in future editions.

Sincerely,

Editorial Board

Table of Contents

Chlorophyll-a as a predictor of Biochemical Oxygen Demand in an urban lake: A case study in Samarinda, Indonesia Eka Fransiska Hamdhani Hamdhani*	108-119
Value-added and marketing analysis of blue swimming crab (<i>Portunus pelagicus</i>) floss processing at UMKM Bontings in Manggar Baru Village, East Balikpapan District Putri Cinda Yani Gusti Haqiqiansyah* Doni Darmasetiadi	120-126
A Study of the Pollutant Load Capacity of the lower Sangatta River based on BOD, COD, and TSS parameters using the QUAL2KW method Deffry Kolin Nuresa Samsul Rizal Hamdhani Hamdhani* Nataniel Tandirogang Henny Pagoray Yuniarto Setiawan	127-133
Environmental carrying capacity based on water provision of Kutai Kartanegara Regency Dewi Wahyuning Fitri Lestari Yohanes Budi Sulistioadi* Henny Pagoray Krishna Purnawan Candra Iya' Setyasih Krispinus Duma	134-146
Abundance and polymer composition of macroplastic debris along the Somber River, Balikpapan City, East Kalimantan Muhammad Syahrir R. Hamdhani Hamdhani* Daisy Rahma Rizal Reny Herlindah Wa Ode Siti Safiyah Angelica Lusiana Permatasari	147-159
Potential use of a coal mine pit lake as a raw water source in Loa Ipuh Darat, Kutai Kartanegara, Indonesia Abdul Muchlis Hamdhani Hamdhani* Yuniarto Setiawan Ndan Imang Ibrahim Ibrahim Samsul Rizal	160-169
Water Quality Status of the Sanga-Sanga River, East Kalimantan, determined with the Pollution Index Method under high- and low-tide conditions Salsabilla Nava Mardiyani Hamdhani Hamdhani* Ghitarina Ghitarina	170-176
Income of tiger shrimp (<i>Penaeus monodon</i>) and milkfish (<i>Chanos chanos</i>) polyculture farmers with mangrove-integrated and non-mangrove ponds in Sungai Meriam Village, Anggana District, Kutai Kartanegara Regency, East Kalimantan Dirga Agustian Pallemai* Heru Susilo Qoriah Saleha	177-183
